Abstract: The administration and uses of national wildlife refuges and wetland management districts are governed by the National Wildlife Refuge System Administration Act of 1966 (Administration Act; 16 U.S.C. 668dd-668ee), as amended by the National Wildlife Refuge System Improvement Act of 1997; the Refuge Recreation Act of 1962 (Recreation Act; 16 U.S.C. 460k-460k-4); and the Alaska National Interest Lands Conservation Act (ANILCA; 16 U.S.C. 3101 *et seq.*). ANILCA provides specific authorization and guidance for the administration and management of national wildlife refuges within the State of Alaska.

Renewal of OMB's approval authorizes the Yukon Delta National Wildlife Refuge (YDNWR) to participate in the design and implementation of subsistence fisher surveys operated by the Orutsararmiut Traditional Native Council and the Kuskokwim River Inter-Tribal Fisheries Commission (KRITFC). Participation in the surveys informs in-season fisheries management decision-making in the Kuskokwim River subsistence salmon fishery.

The information collected by the survey includes the times individuals left and returned from boat launches, several characteristics of their fishing gear, broad classification of where the fishing activity occurred, for how long they actively fished, and how many of each of three salmon species they harvested. When coupled with aerial boat counts performed by the YDNWR, these data can be used to obtain quantitative estimates of total fishing activity and salmon harvest occurring from short-duration subsistence harvest opportunities. The estimates are then used to inform the management strategy used jointly by the YDNWR and the KRITFC.
